<sup>1</sup> Benefit plans vary in coverage and some plans may not provide coverage for certain services discussed in the customized guidelines. Coverage decisions are subject to all terms and conditions of the applicable benefit plan, including specific exclusions and limitations, as well as applicable state and/or federal law. The customized guidelines do not constitute plan authorization or a guarantee of payment, nor are they an explanation of benefits.

<sup>2</sup> We reserve the right to review and modify the MCG care guidelines or customized guidelines at any time.

**CUSTOMIZATIONS – BACKGROUND INFORMATION**

Types of Customizations

Customizations are most often done to align with existing medical policy documents or to refer a user to third party guidelines, such as Carelon Medical Benefits Management. Original MCG criteria may be customized when a separate medical policy document is not appropriate.

In addition to customization in clinical criteria, other changes may be made to MCG care guidelines such as adding references, revising coding, or noting length of stay based on mandates.

Review and Approval of Customizations

The Medical Policy & Technology Assessment Committee (MPTAC) reviews and approves new editions of MCG care guidelines and customizations to revise MCG clinical indications.

Disclaimer

Customized guidelines include a disclaimer at the top of the guideline after the guideline title indicating: *This guideline contains custom content that has been modified from the standard care guidelines and has not been reviewed or approved by MCG Health, LLC.*

Guideline History

Customized guidelines include a “Guideline History” section that provides (1) the date of the Medical Policy & Technology Assessment Committee (MPTAC) meeting review and approval of the customization, and (2) a summary of the customization to the MCG care guidelines.
